

2007 Stowers Scholars

2007 STOWERS SCHOLARS:

(back row from left) Stephen Gradwohl, Steven Scoville, Timothy Hutson, (middle row from left) Nicole Schweppe, Jamie Bernard, Jonathan Scrafford, (front row) Laura Schaefer, Bethany Harris.

Each summer, college students from around the country apply to participate in the Stowers Scholars Program. This year, eight Stowers Scholars were selected from among 73 applicants. These students conduct research at the Institute under the supervision of Stowers researchers and conclude their summer experience with a presentation of their findings. To learn more about the Stowers Scholars program, visit www.stowers-institute.org/ScientistsSought/training/scholarsprogram.asp.

Student Scholar	Lab	School	Project
Jamie Bernard	Microarray	University of Kansas	"Gene Synthesis, a Synthetic Approach"
Stephen Gradwohl	Yu Lab	Washington University	"Olfactometer Odorants: Delivery Analysis and Characterization"
Bethany Harris	Proteomics	University of Kansas	"Proteomic Analysis of RNAPII-Associated Proteins"
Timothy Hutson	Shilatifard Lab	Saint Louis University	"Detecting Cross-Talk Between Histone Modifications"
Laura Schaefer	Rong Li Lab	William Jewell College	"Screen for Mutations that Affect the Localization of a Polyamine Transporter in <i>Saccharomyces cerevisiae</i> "
Nicole Schweppe	Hawley Lab	Rockhurst University	"Spontaneous Nondisjunction in Natural Populations of <i>Drosophila</i> "
Steven Scoville	Cytometry	Brigham Young University	"Highly Purified Stem Cell Identification by Microarray and QPCR"
Jonathan Scrafford	Baumann Lab	Stanford University	"Roles of Rap1 in Non-Homologous End-Joining Inhibition at Telomeres"
